

SPRAYING SYSTEM

BRUSH

ROLLER

PERFECT RESULTS

Contactless and even paint application - no brush or roller marks, perfect coverage and first-class surface quality, with only a small amount of spray mist, too.

SAVE TIME

At least 10 x faster than with a brush and roller. Simply mask and go. You'll be amazed by how quickly the job is finished.

SUITABLE FOR VIRTUALLY ALL PAINTS

The devices can process virtually all paints. Highly viscous materials, however, should be diluted in 10% increments. Use water for water-based materials and solvents for solvent-based materials. This will ensure that every paint application is a success. Exterior masonry paints unfortunately cannot be sprayed with this device.

HEA HIGH EFFICIENCY AIRLESS

PERFECT COVERAGE

The soft fan pattern ensures perfect coverage and a streak-free result in just one coat.

MAXIMUM CONTROL AND LESS OVERSPRAY

Reduced spraying pressure enables maximum control, up to 55% less overspray and a longer service life.

MAXIMUM EASE OF USE

Fatigue-free and comfortable spraying, thanks to the ergonomic handle combined with an easy trigger, as well as less demand which leads to a longer service life.

READY FOR RENOVATION

Do you want to freshen up your walls and ceilings with a new coat of paint or completely change your colour design? Whether you want to paint doors, interiors, garden furniture, or fences, bring your painting and decorating visions to life in your unique style. Do you want the work to be enjoyable, but still insist on a perfect result? Then WAGNER products are just what you're looking for. Simply spray!
